Open Letter to Visa Inc.'s Executives & Board of Directors

Re: Visa's Continued Support of Sexual Exploitation

On behalf of the Visa shareholders of our advisory firm, Beacon Wealth Consultants, Inc., I am writing to express our deep concern and dismay with Visa's decision to continue working with MindGeek despite ample evidence of their hand in the abuse and exploitation of countless men, women, and children on MindGeek-owned websites such as RealityKings and Brazzers. MindGeek, the owner of Pornhub and numerous other hardcore pornography websites, is profiting from sexual abuse and exploitation. By partnering with this entity, your corporation is enabling this abuse to continue and further lining the pockets of MindGeek executives.

Many entities have already taken the necessary steps to remove their support of such a harmful company such as MindGeek. As a result of allegations from numerous survivors who have come forward about their sex trafficking or child sexual abuse being filmed and then uploaded and shared countless times on Pornhub and their other MindGeek websites, the Canadian government is conducting public hearings investigating MindGeek, and several U.S. Congressional representatives have called for the Department of Justice to investigate.

Visa's decision to be continue to process payments for one of the world's most prolific sexual exploiters legitimizes the violent and degrading nature of pornography and the abuse of countless men, women, and children. As an investment firm deeply committed to environmental, social, and governance concerns, we believe that Visa's continued support of this industry leaves Visa open to liability and signals that Visa is not dedicated to corporate responsibility. Our shareholders will be divesting their stake in Visa immediately.

We urge you to take action to protect children and defend human dignity.

Sincerely,

Hillary Sunderland, CFA, CKA
